

## Minutes of the 2. DIGITIZE Dialogue 2<sup>nd</sup> March 02:00 to 04:00 p.m.

A special “thank you” again to the participants of the Digitize Dialog. The event and your inspiring discussions have shown us once again how important the topic of "digital visitor management " is. We are looking forward to continuing to work with you on this important aspect of visitor guidance.

### 1. Participants

Digitize the Planet:

Board of Directors: Hartmut Wimmer, Tilman Sobek, Mathias Behrens-Egge,

Project Manager: Sebastian Sarx

### 2. Outline of the Dialogue

We used the second Digitize Dialogue to present and share the results of our first pilot phase. Through the cooperation with our pilot partners, we have exchanged and worked on laws, ordinances, and local agreements. On this basis, we have given an outlook on the further work of the organization and the upcoming evaluation phase of the results.

1. Organization Update
2. Current Status and Next Steps

In the following round table sessions, important links between our association and international organizations in the fields of sports, nature conservation, and tourism were identified. The experiences from nature tourism and around the pandemic draw a similar picture across Europe. A strong European network working on a common European and digital solution for visitor management was proposed as a solution. Furthermore, important framework conditions for the work on the political European level were pointed out and possible funding projects in this framework were mentioned and analyzed.

Some links to open government data at EU level and research projects as well as cooperation mentioned during the event:
