1.2 Cooperations - Associations

EUROPEAN OUTDOOR GROUP

ENOS
European Network of Outdoor Sports

EUROPEAN TRAILS

European Hiking Federation
Hiking Europe

1.3 Cooperations – Output Channels

Output Channels – Data Distribution

DIGITIZE THE PLANET

Exchange - Dialog

2.European funding projects and cooperation opportunities

2.1 Funding Application in Prepartion

A. EcoSportHub – European Data Standard

B. Knowledge Hub – Digital Visitor Management

2.2 Upcoming Funding Projects

End of April 2026 publication call for proposals

Actual Status: Seachring for topics and partners

2.3 Cooperation Opportunities

Why choosing Digitize the Planet as an project partner:

- Strong digital partner
- Experience with open data, APIs and digitization
- Practical experience in pilot projects and funding projects
- Extensive network of stakeholders and partners
- Unique mission with strong environmental impact

DIGITIZE THE PLANET

4.Structure of nature conservation authorities in Europe

4.1.Structure of Nature Authorities

Country	Responsibilities - Enactment of the Protected Area Ordinance	Regions	Organisation	Link - Geodata	Link more Info	Direct Contact
Germany	Regions I Bundesländer	Bayern	Landesamt für Umwelt	Protected Areas		
		Baden-Württe	Landesanstalt für Umwelt	Nature Protected Areas	more data (regulation, picture, discription)	
		Berlin	Senat Berlin	Protected Areas	more data (regulation, picture, discription)	
		13 more	tba			
Österreich	Regions I Bundesländer	Tirol				
		Vorarlberg				
		Wien				
		4 more	tba			
Lichtenstein	Lichtensteinische Landesverwaltung	all	Amt für Umwelt	Protected Areas		
Luxemburg						
Spain	Comunidades Autonomas					
Italy						
Norway						
Belgium	Regions I Bundesländer	Wallonien	Département Nature Forêts (DNF)			
		Bussels	Brussels - Brussels Environnement			
		Flanders				
.....						
.....						

4.2. Next Steps

- Fill in the table for the respective country or region

- Convening of a round table DtP, competent authority, and the respective partner (protected area, tourism) - Door opener: the respective country or region

- 14.04.2026 Training - Data Input into the Digitize Platform

DIGITIZE THE PLANET

Exchange - Dialog

DIGITIZE THE PLANET

5.Data entry and data output processes

Input and maintenance by verified bodies

Official rules & protection purposes

Structured preparation for digital use in various systems

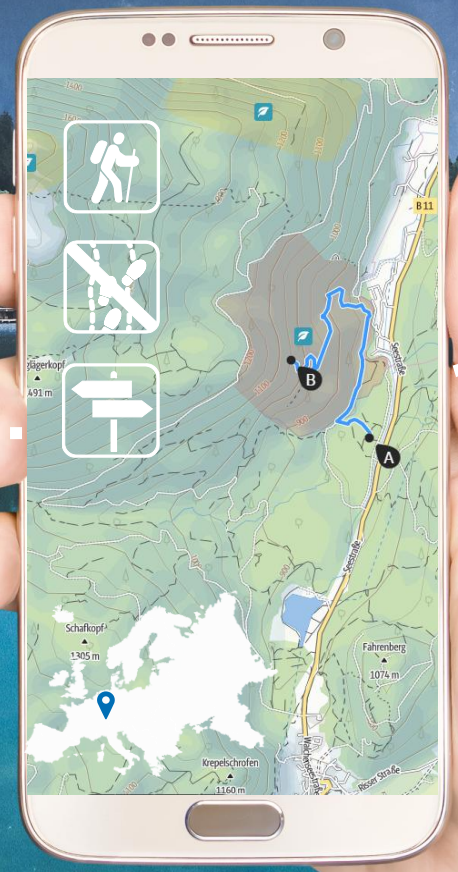
Platform & Database

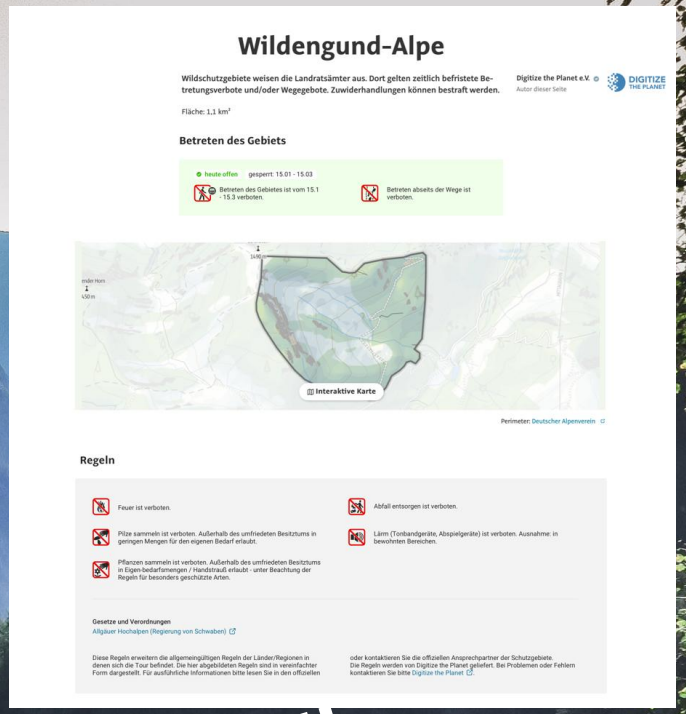
Protected areas

Rules

tective purpose

Output via tour portals and map applications





DIGITIZE THE PLANET

Are there activities that are only allowed on designated trails that are signposted on site?

Yes | No

Are there general behavior rules?

Yes | No

Dog rules

Flora and fauna rules

General behavior

Stay activities

Bayerischer Wald
National Park

Description & Map | Wildlife | Rules | Regulations

Description & Map

Summary

Along the Bavarian-Czech border between Bayerisch Eisenstein in the district of Regen and Mauth in the district of Freyung-Grafenau lies the Bavarian Forest National Park. On October 7, 1970, the large-scale protected area was designated as the first national park in Germany. Together with the neighboring Šumava National Park in the Czech Republic, it forms the largest contiguous protected forest area in Central Europe. On almost 25,000 hectares, the guiding principle in the Bavarian Forest is "Let nature be nature."...

DIGITIZE THE PLANET

DIGITIZE THE PLANET

APIv2

Our new API offers data for conservation purposes from the areas of fauna, flora and habitat

DIGITIZE THE PLANET

Exchange - Dialog

We invite you to join us!

- Join the digitize the planet network
- Cooperation in european funding programs
- Support with data entry
- Exchange of experience
- Become a member of our NGO

DIGITIZE THE PLANET

We all contribute to the problem. **Let's become part of the solution.**

Thank you!

Digitize the Planet
